

## MULTI ACADEMY TRUST SUPPORT SERVICE

Anderson Quigley is delighted to announce the launch of its Independent Multi Academy Trust (MAT) Support Service. We have worked with school leaders, Academy sponsors and MATs to design this unique offer which supports MAT development and improvement, with a focus on strengthening governance and school improvement.

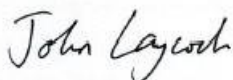

The service is aimed at those MATs which have not benefited from a fully independent review of their governance arrangements or school improvement strategies. It will also benefit MATs which are either new, seeking to grow, have recently grown through the acquisition of new schools or those that are well established and seeking to accelerate their development.

Our MAT Support Service is led by our Principal Consultant who will provide your initial support review. The Principal Consultant has fourteen consecutive years' experience providing education advice to the DfE academy programme at all levels across England. He has worked with all the major national sponsor MAT groups and has helped establish and develop over five hundred MATs. The Principal Consultant has had a career in education; his roles have spanned teaching, inspection of both primary and secondary phases, senior local authority roles including experience as a Director of Children's Services and fifteen years as a successful education consultant.

Our Independent MAT Support Service is further staffed by a range of Associate Consultants, each with a long involvement with the Academy and MAT programme. Our Associate Consultants' experience spans headship, MAT development, inspection, local authority school improvement and school governance. All our associate consultants have wide ranging recent and practical experience of MATs, free schools and networks with national system leaders in the DfE RSC teams.

For more information on how we can support your MAT to improve, grow and thrive, please contact John Laycock, Partner at Anderson Quigley at [john@andersonquigley.com](mailto:john@andersonquigley.com) or +44 (0)7949 700 538.

We look forward to hearing from you.

Anderson Quigley
